

# TABLE OF CONTENTS

## TABLE OF CONTENTS

|   | <b><u>PAGE</u></b> |
|---|--------------------|
| <b>CHAPTER 1: INTRODUCTION</b>  |                    |
| 1.1 2014 SUBFLOW REPORT .....   | 1-1                |
| 1.2 2012 COURT ORDER.....   | 1-2                |
| 1.3 SUPPLEMENTAL SUBFLOW REPORT .....   | 1-4                |
| 1.4 REISSUED REPORT .....   | 1-7                |
| <b>CHAPTER 2: ANALYSES USED TO DETERMINE THE LATERAL<br/>EXTENT OF THE FHA AND SUBFLOW ZONE</b>                       |                    |
| 2.1 INTRODUCTION.....   | 2-1                |
| 2.2 GEOMORPHOLOGICAL REASONING AND INFERENCE.....   | 2-1                |
| 2.3 DETERMINING THE LATERAL EXTENT OF THE FHA .....   | 2-4                |
| 2.3.1 Step 1 - FHA Deposited Against Pre-Holocene Topography.....   | 2-5                |
| 2.3.2 Step 2 - Lateral River Erosion and Deposition Predominates .....  | 2-5                |
| 2.3.3 Step 3 - Tributary Erosion and Deposition is Significant .....  | 2-7                |
| 2.4 VERIFICATION OF ADWR'S GEOMORPHOLOGICAL<br>INFERENCES.....  | 2-10               |
| 2.5 ANALYSES OF SOIL LITHOLOGY AND DRILLER'S LOGS .....   | 2-11               |
| 2.5.1 Professional-level Lithology Logs .....   | 2-12               |
| 2.5.2 Well Driller's Logs .....   | 2-14               |
| 2.6 ANALYSES OF WATER LEVELS IN WELLS.....  | 2-16               |
| 2.7 APPLYING SETBACKS TO THE LATERAL EXTENT OF<br>THE FHA TO DELINEATE THE LATERAL EXTENT OF THE<br>SUBFLOW ZONE..... | 2-18               |
| <b>CHAPTER 3: LATERAL EXTENT OF THE FHA AND SUBFLOW ZONE</b>  |                    |
| 3.1 INTRODUCTION.....   | 3-1                |
| 3.2 ANALYSES RESULTS FOR FHA DELINEATION.....   | 3-1                |
| 3.3 PRESENTATION OF THE LATERAL EXTENT OF THE FHA .....   | 3-2                |
| 3.4 PRESENTATION OF THE LATERAL EXTENT OF THE<br>SUBFLOW ZONE.....  | 3-3                |
| 3.5 SUMMARY .....   | 3-4                |

## TABLES (TAB)

Table 2-1A Tributary Drainage Site Investigation Verification Results Along Right  
Margin of SRP Inner Valley, Looking Downstream (East)

|            |   |
|------------|---|
| Table 2-1B | Tributary Drainage Site Investigation Verification Results Along Left Margin of SRP Inner Valley, Looking Downstream (West) |
| Table 2-2A | Upper San Pedro Watershed Professional-level Lithology Logs in Mapped FHA   |
| Table 2-2B | Lower San Pedro Watershed Professional-level Lithology Logs in Mapped FHA   |
| Table 2-3A | Upper San Pedro Watershed Professional-level Lithology Logs in Mapped THA   |
| Table 2-3B | Lower San Pedro Watershed Professional-level Lithology Logs in Mapped THA   |
| Table 2-4A | Driller Lithology Logs in Mapped THA Between San Pedro River Miles 112-109  |
| Table 2-4B | Driller Lithology Logs in Mapped THA Between San Pedro River Miles 106-104  |
| Table 2-4C | Driller Lithology Logs in Mapped THA Between San Pedro River Miles 99-96  |
| Table 2-4D | Driller Lithology Logs in Mapped THA Between San Pedro River Miles 89-86  |
| Table 3-1  | Lengths of FHA Determined from Steps 1, 2, and 3  |
| Table 3-2  | Summary of Lengths of FHA Determined from Steps 1, 2, and 3   |

## **FIGURES (TAB)**

|            |   |
|------------|---|
| Figure 2-1 | Example Application of 100-ft and 200-ft Setbacks |
| Figure 3-1 | Example of FHA Delineation Map Sheet              |
| Figure 3-2 | Example of Subflow Zone Delineation Map Sheet     |

## **APPENDICES (DVD)**

|             |  |
|-------------|--|
| APPENDIX A: | FHA Delineation Map Sheets             |
| APPENDIX B: | Professional-level Logs in FHA and THA |
| APPENDIX C: | Driller Logs Maps                      |
| APPENDIX D: | Driller Logs in THA                    |
| APPENDIX E: | Water Level Maps                       |
| APPENDIX F: | Water Level Linear Regressions         |
| APPENDIX G: | Subflow Zone Delineation Map Sheets    |
